WORK EXPERIENCE

Geda TECH Dire Dawa

Full Stack Developer (Intern/Trainee)

02/07/2025 – 02/10/2025

- Architect-ed and deployed a full-featured E-commerce using Python (Django) for the back-end and React for the front-end.
- Designed and optimized relational database schema using PostgreSQL, ensuring data integrity and efficient query performance.
- Developed REST FULL APIs to facilitate seamless communication between the client-side and server-side, reducing data load times by approximately 15%.
-Integrated third-party services, such as Stripe for payments or O-Auth for secure user authentication, following industry best practices.
-Collaborated in an Agile environment, participating in daily stand-ups and utilizing Git/GitHub for version control and peer code reviews.

EDUCATION AND TRAINING

01/02/2023 – CURRENT Dire Dawa, Ethiopia

Bachelor Degree Dire Dawa University

Website https://www.ddu.edu.et/ | **Field of study** Computer science | **Level in EQF** EQF level 6

LANGUAGE SKILLS

MOTHER TONGUE(S): Afaan Oromo

Other language(s):

Amaharic

Listening C2
Spoken production C1
Reading C1
Spoken interaction C2
Writing C2

English

Listening B2
Spoken production B2
Reading C2
Spoken interaction B1
Writing C2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

PROJECTS

09/07/2026 – 20/09/2026

Real chat App

-Stack: Python, Flask, Socket.io, Redis.
-Engineered a real-time communication platform supporting multiple chat rooms and persistent messaging.
-Implemented Docker containers to streamline the development environment and ensure consistent deployment across different machines.

SKILLS

BACK-END

Python , Django ,Flask, Fast API

FRONT-END

HTML5, CSS3, JavaScript (ES6+), React.js

DATABASE

PostgreSQL, MySQL, MongoDB

TOOLS AND DEVOPS

Git, Docker, Linux (Ubuntu), Postman, Heroku

HOBBIES AND INTERESTS

Team Sports

-Team Sports (Football/Basketball): Developing strong communication skills and a collaborative mindset, essential for succeeding in team work s.
-Language Learning: Training the brain to adapt to new syntax and structures, which translates to a faster learning curve for new programming languages.
-Volunteering/Community: Engaging in community-driven projects, demonstrating leadership and a commitment to helping others reach common goals.
